

# St Stephens Primary School

## Project Details

St. Stephen's, located in Bowling, Bradford, has an exciting opportunity for you to get involved in a meaningful project. Their Year 6 students recently secured funding through a Creative Labs initiative to establish a project focused on growing produce. The children plan to sell their harvest to fellow students and parents, and they are eager to get started. The school already has a growing area and a polytunnel in place, but both have been neglected over time and require clearing, repairs, and painting timber beds. Site Images p2.

## Date & Volunteer Number

We are looking for a team of 5 volunteers to complete a morning (9:30am – 12:30am) or afternoon (1:30pm – 4:30pm).

## On-site support

On the day Participate will be providing a member of staff to support the volunteers. A trained first aider and first aid kit will be available during the challenge. A tools talk and health and safety briefing will be given by Participate at the beginning of the day.

## Preparation

Volunteers will be undertaking construction and painting activities and are required to wear old and reasonably robust clothing that you will not mind getting paint on. We do offer paint overalls, although these do not guarantee no damage to clothing. We also require sensible sturdy footwear, avoiding heels and open toe footwear. Where personal protective equipment is required, it will be provided.

## Materials, tools and equipment to be provided by Participate

Tools and materials will be provided by Participate Projects.
