# Impact

The Venturists is a unique project that unleashes the potential of young people to create positive change in their communities. The Venturists gives young people the opportunity to start viable social action projects, empowering children through real learning experiences to take an active role in the issues that affect them and their community. They plan their project, access the tools and resources needed to bring their idea to life; and then deliver a project that makes a real impact. The project supports the young people's Personal Development and fosters the key skills needed in developing lifelong learners and confident, responsible adults - the next future leaders.

The young people grown and develop throughout The Venturist project following on from the new opportunities and experiences that they encounter. Engaging with new people from their community boosts their confidence and self-esteem and they start to really believe in themselves. Our Venturists feel empowered and it is the volunteers who help them take ownership of their Youth Social Action Project and link learning to the real world. Volunteering is a real positive experience for everyone involved and we look forward to working with you in the future.
